PROFESSIONAL SUMMARY

Detail-oriented Business Analyst with **2+ years of experience** in fintech, municipal technology, and enterprise systems. Skilled in eliciting and documenting business requirements, stakeholder management, process mapping, and Agile delivery support. Proven ability to translate complex business needs into structured documentation including BRDs, SRS, user stories, and workflow diagrams. Experienced in ERP/CRM integrations, UAT coordination, and cross-functional collaboration to ensure successful project implementation.

PROFESSIONAL EXPERIENCE

Project Coordinator | **Optimo Gov** · London, England

April 2025 – Present

- ▷ Gathered and documented business and functional requirements for municipal venue and facility management systems, translating stakeholder needs into actionable specifications.
- ▷ Facilitated requirements workshops and stakeholder interviews to ensure alignment between business objectives and technical delivery.
- ▷ Managed backlog prioritisation and scope change documentation in collaboration with product owners and key stakeholders.
- ▷ Coordinated UAT cycles, defect tracking, and issue resolution, ensuring all acceptance criteria were met before go-live.
- ▷ Produced structured BRDs, process flow diagrams, status reports, and meeting minutes for internal and client stakeholders.
- ▷ Bridged communication between development, QA, and business teams by maintaining clear requirement traceability throughout the project lifecycle.

Business Analyst | **Arimac** · Colombo, Sri Lanka

August 2024 – April 2025

- ▷ Elicited, documented, and validated functional and technical requirements for fintech enterprise solutions including digital wallet systems; produced BRDs, SRS documents, Change Requests, and detailed Agile user stories.
- ▷ Conducted stakeholder interviews and workshops to understand current-state business processes and define future-state requirements.
- ▷ Collaborated with development and QA teams to refine backlog items, clarify acceptance criteria, and reduce mid-sprint ambiguity.
- ▷ Supported ERP and CRM system integration projects (Microsoft Dynamics 365), mapping operational workflows and identifying process gaps.
- ▷ Modelled business processes using BPMN notation in Visio and Lucidchart, providing a shared reference across dev, QA, and business teams.
- ▷ Coordinated UAT cycles, tracked defects, and ensured full issue resolution before production deployment.

Business Analyst Intern | **Qnetwork** · Ontario, Canada (Remote)

March 2024 – August 2024

- ▷ Conducted business process analysis for real estate technology platforms to identify inefficiencies and improvement opportunities.
- ▷ Gathered requirements through stakeholder interviews and converted outputs into functional specifications and workflow diagrams.
- ▷ Developed detailed process maps and user journey documentation using Visio and Lucidchart to support development clarity.
- ▷ Assisted in sprint planning, backlog refinement, and feature validation activities within an Agile delivery environment.

KEY PROJECTS

Peoples Pay – Digital Wallet Platform (*Fintech / Arimac*)

- ▷ Gathered detailed business and functional requirements for a large-scale digital wallet product, translating stakeholder needs into structured user stories and SRS documentation.
- ▷ Coordinated stakeholder discussions to ensure alignment between banking operations, compliance requirements, and technical implementation.
- ▷ Managed change request documentation and supported system validation and UAT activities through to successful deployment.

Wyndham City Council – Municipal Digital Platform (*GovTech / Optimo Gov*)

- ▷ Analysed and documented business requirements across multiple council departments, producing process maps and functional specifications.
- ▷ Supported configuration of system modules by ensuring documented requirements were accurately reflected in delivered functionality.
- ▷ Ensured **100% milestone adherence** through structured documentation, requirement traceability, and proactive stakeholder coordination.

Breeze – Real Estate Application (*Real Estate / Qnetwork*)

- ▷ Conducted client interviews and stakeholder workshops to gather and document business and functional requirements for Breeze, a real estate web application for property search and discovery.
- ▷ Developed the business model canvas, user flow diagrams, and system documentation to translate client needs into structured specifications for the development team.
- ▷ Supported end-to-end BA activities including process mapping, scope definition, and requirements validation, ensuring delivered features aligned with agreed business objectives.

Swing Right – Batting Correction System (*Final Year Project*)

- ▷ Led all business analysis and design activities for SwingRight, an AI-powered cricket shot analysis web application, including requirements documentation, wireframing, and UX design.
- ▷ Researched and curated cricket shot reference datasets, conducted user requirement analysis, and produced structured functional specifications to guide technical development.
- ▷ Enhanced an existing MediaPipe model using Python and TensorFlow to deliver real-time shot accuracy analysis, and built the full-stack web application using React as a solo project.

CORE COMPETENCIES

Requirements Engineering: Business & Technical Requirements Gathering · BRD / SRS / CR Authoring · User Story & Acceptance Criteria Writing · Gap Analysis · Traceability Matrix

Process & Analysis: BPMN Process Mapping · As-Is / To-Be Analysis · User Journey Mapping · Data Flow Diagrams · Wireframing & Prototyping (Balsamiq)

Agile Delivery: Agile / SCRUM Methodology · Sprint Planning & Backlog Refinement · UAT Coordination · Defect Tracking & Issue Resolution

Stakeholder Management: Stakeholder Interviews & Workshops · Cross-functional Collaboration · Client-facing Communication · Scope & Change Management

Technical: ERP & CRM Integration · SQL (Data Queries & Validation) · REST APIs · SaaS Environments · API Testing (Postman) · Microsoft Dynamics 365

TOOLS & TECHNOLOGIES

BA & PM Tools: JIRA · Confluence · ClickUp · MS Project · Asana · Trello · Monday.com · Slack

Documentation: Microsoft Office Suite · Confluence · Google Workspace

Data & Analytics: SQL · Power BI · Tableau · Microsoft Excel

Diagramming & Prototyping: Visio · Lucidchart · draw.io · Balsamiq · Canva

ERP / CRM: Microsoft Dynamics 365

Development & APIs: React · HTML · CSS · Python · Laravel · REST APIs · Postman

EDUCATION

BSc (Hons) Computer Science · Staffordshire University, UK

2022 – 2025

CERTIFICATIONS

- ▷ PMI – PMP (Project Management Professional)
- ▷ Google Project Management Certificate (Coursera)
- ▷ IBM Business Analysis Professional Certificate
