

SHIMARK AHMED

IT Project Manager

+94 76 7455 458 · shimark.ahmed.2002@gmail.com · linkedin.com/shimark-ahmed · Portfolio

PROFESSIONAL SUMMARY

Results-driven IT Project Manager with **2+ years of experience** spanning Project Management, Business Analysis, and Product Coordination across fintech, GovTech, and ArchViz/software domains. Skilled in facilitating Agile delivery, managing sprint workflows and risk, and bridging communication between technical teams and client stakeholders. Currently managing delivery across ArchViz and software departments at an Australian ArchViz studio, coordinating a large-scale **Unreal Engine digital twin** for a US real-estate client. Proven track record of **100% on-time milestone delivery** across distributed, cross-functional teams. Holds Google Project Management and IBM Business Analysis certifications; currently working toward **PSM1 (Professional Scrum Master I)**. Actively leverages AI tools including ChatGPT, Claude, and Microsoft Copilot to accelerate requirements documentation, sprint reporting, and stakeholder communication.

PROFESSIONAL EXPERIENCE

Associate Project Manager | **Atlas Labs** · Colombo, Sri Lanka (Hybrid)

June 2026 – Present

- ▷ Manage delivery across two departments — ArchViz (3D visualisation) and PMD (software) — coordinating priorities, resourcing, and cross-team communication for an Australian ArchViz studio serving international clients.
- ▷ Own end-to-end Jira sprint workflows for the **Tavistock Lake Nona digital twin** project — managing sprint planning, backlog grooming, sprint update presentations, and RAID logs, reporting directly to the Project Manager.
- ▷ Support budgeting and invoice preparation, tracking project costs against milestones to keep delivery on budget and ensure accurate client billing.
- ▷ Produce sprint retrospectives, risk mitigation plans, and structured delivery documentation to maintain stakeholder visibility and sprint cadence.
- ▷ Leverage working knowledge of software development and 3D/ArchViz production pipelines to bridge communication between developers, 3D artists, and client stakeholders effectively.
- ▷ Utilised AI tools including ChatGPT and Claude to accelerate sprint documentation, requirements drafting, and internal communication preparation.

Project Coordinator | **Optimo Gov** · London, England (Remote)

April 2025 – June 2026

- ▷ Led end-to-end Agile coordination for municipal venue and facility management systems, managing scope, timelines, and stakeholder expectations across the full project lifecycle.
- ▷ Facilitated all SCRUM ceremonies — sprint planning, daily stand-ups, reviews, and retrospectives — maintaining consistent delivery cadence for distributed, cross-timezone teams.
- ▷ Owned backlog prioritisation and scope change management in collaboration with product owners, reducing scope creep and unplanned rework.
- ▷ Coordinated UAT cycles, defect tracking, and issue resolution, enabling smooth go-live launches with **zero critical post-release incidents**.
- ▷ Produced structured status reports, RAID logs, and meeting minutes for internal leadership and client stakeholders.

Business Analyst | **Arimac** · Colombo, Sri Lanka

August 2024 – April 2025

- ▷ Elicited, documented, and validated business and technical requirements for fintech enterprise solutions; produced BRDs, SRS documents, Change Requests, and Agile user stories.
- ▷ Refined and groomed backlog items with development teams, ensuring sprint clarity and reducing mid-sprint clarification requests.
- ▷ Supported **Microsoft Dynamics 365** ERP and CRM integration projects, mapping current-state processes and defining future-state requirements.
- ▷ Modelled business processes using BPMN notation in Visio and Lucidchart, serving as a shared reference for dev and QA teams.
- ▷ Assisted sprint coordination, milestone tracking, and stakeholder reporting across multiple concurrent project streams.

- ▷ Collaborated with cross-functional teams to analyse and enhance real estate technology platforms, improving user workflows and operational efficiency.
- ▷ Conducted stakeholder interviews and workshops to gather requirements, translating outputs into structured functional specifications.
- ▷ Created process flow diagrams and system documentation using Visio and Lucidchart to improve development team clarity.

KEY PROJECTS

Tavistock Lake Nona – Unreal Engine Digital Twin (*ArchViz / GovTech / Atlas Labs*)

- ▷ Lead PM coordination for a large-scale digital twin of **Lake Nona, Orlando** built in Unreal Engine for Tavistock Development, a major US real-estate client.
- ▷ Manage Jira sprint workflows, sprint update presentations, risk mitigation logs, and invoice preparation across the full project lifecycle.
- ▷ Maintain stakeholder visibility and delivery cadence by producing structured retrospectives and RAID documentation each sprint.

Peoples Pay – Digital Wallet Platform (*Fintech / Arimac*)

- ▷ Drove requirements gathering and documentation for a large-scale digital wallet product serving enterprise clients across multiple markets.
- ▷ Authored user stories, acceptance criteria, and system specifications consumed directly by development sprints.
- ▷ Coordinated timelines, resource allocation, and cross-functional communication to ensure on-time delivery of all milestones.

Wyndham City Council – Municipal Digital Platform (*GovTech / Optimo Gov*)

- ▷ Supported implementation of a venue and facility management system across multiple council departments.
- ▷ Managed deliverables register, issue log, and stakeholder alignment; achieved **100% on-time delivery** of all key milestones.
- ▷ Produced client-facing progress reports and internal documentation throughout the project lifecycle.

SwingRight – AI Cricket Shot Analysis System (*Final Year Project / Solo*)

- ▷ Sole developer and project lead for **SwingRight**, an AI-powered cricket shot analysis web application that processes user-uploaded videos and evaluates shot technique using computer vision.
- ▷ Built a pose comparison pipeline using **MediaPipe** for landmark detection and **Dynamic Time Warping (DTW)** to score shot accuracy against reference technique.
- ▷ Managed the full project lifecycle independently — requirements, design, development, testing, and delivery.

Breeze – Real Estate Web Application (*Personal Project / Team Lead*)

- ▷ Led a cross-functional team in designing and delivering **Breeze**, a real estate web application enabling users to search and discover property listings.
- ▷ Developed the business model, managed stakeholder communications, and oversaw end-to-end project documentation to align team delivery with business objectives.

Horcery – Smart Stable IoT Platform (*IoT / Connected Hardware / Project Coordination*)

- ▷ Coordinated delivery for **Horcery**, an IoT platform combining connected stable hardware (stall monitors, wireless feed/water sensors) with a companion mobile app for real-time monitoring and alerts.
- ▷ Managed cross-functional communication between hardware, software, and app teams to align feature scope, timelines, and release milestones.

CORE COMPETENCIES

Project Management: Agile / SCRUM · Kanban · Sprint Planning & Facilitation · Backlog Management · Scope & Change Control · Risk Identification & Mitigation · RAID Log Management · Budgeting & Invoicing · OKR Framework

Business Analysis: Requirements Gathering (BRD / SRS / CR) · User Story & Acceptance Criteria Authoring · BPMN Process Mapping · Gap Analysis · Stakeholder Management · Change Management

Technical: UAT Coordination · Defect Tracking · ERP & CRM Integration · REST APIs · API Testing (Postman) · SaaS Environments · Enterprise System Implementation · Working Knowledge of Unreal Engine & ArchViz Pipelines

Soft Skills: Cross-functional Leadership · International Team Collaboration · Client-facing Communication · Problem Solving · Adaptability

TOOLS & TECHNOLOGIES

PM & Collaboration: JIRA · Confluence · ClickUp · MS Project · Asana · Trello · Monday.com · Notion · Slack · Google Workspace · Teams

Data & Analytics: SQL · Power BI · Tableau · Microsoft Excel

Diagramming & Design: Visio · Lucidchart · draw.io · Balsamiq · Figma (Basic) · Canva

AI Tools: Microsoft Copilot · ChatGPT · Claude

ERP / CRM: Microsoft Dynamics 365

Development & APIs: React · HTML · CSS · Python · Laravel · JavaScript · REST APIs · Postman · Unreal Engine (working knowledge)

Digital Marketing: GA4 · GTM · Google Ads

EDUCATION

BSc (Hons) Computer Science · Staffordshire University, UK

2022 – 2025

CERTIFICATIONS

- ▷ Google Project Management Certificate (Coursera)
- ▷ IBM Business Analysis Professional Certificate
- ▷ Google Analytics 4 (GA4) Certification
- ▷ Google Tag Manager Fundamentals

PROFESSIONAL DEVELOPMENT & LEARNING

- ▷ Currently preparing for the **PSM1 (Professional Scrum Master I)** certification.
- ▷ Developing data analysis skills in **Power BI and Tableau** for project reporting and executive dashboards.
- ▷ Building familiarity with **SAFe (Scaled Agile Framework)** for enterprise-level Agile delivery.
- ▷ Building familiarity with **Design Thinking** methodologies for user-centred requirements elicitation and solution validation.
- ▷ SQL — foundational proficiency for data querying and validation; currently strengthening through active practice and project application.
